

Course Evaluation

Course title: The Complete Upper Quadrant

Date held: 17th to 19th March 2017

Quantitative

Element	Explanation	Mean rating
Overall rating of course	Scale: 1 poor → 5 excellent	4.44
Learning outcomes for symposium Scale: 0 strongly disagree → 10 strongly agree		
1.	Improved my skills and competence in the assessment of the cervical spine with emphasis on the assessment of pain from cervical musculoskeletal (articular and motor) structures	8.08
2.	Improved my skills and competence in the assessment of the shoulder with emphasis on the assessment of pain from shoulder musculoskeletal (articular and motor) structures	7.61
3.	Improved my skills and differential diagnosis for the assessment of upper limb neurological conduction deficit and mechanosensitivity in the patient with neurally mediated pain	8.96
4.	Improved my skills and differential diagnosis for the assessment of shoulder, articular and muscular impairment in the patient with shoulder pain	7.79
5.	Improved my ability to accurately establish the relationship between neuromeningeal issues and the patient's presentation	7.71
6.	Improved my ability to accurately establish how the shoulder contributes to a patient's presentation	7.77
7.	Improved my ability to differentially diagnose upper quadrant disorders	7.82
8.	Improved my ability to integrate the principles of contemporary management for upper quadrant disorders	8.04
9.	Improve my knowledge in the assessment and management of whiplash and chronic non-specific neck pain	8.34

Qualitative

Enjoyed most	Enjoyed least	Suggestions for improvement
All sessions were listed Case studies Interactive sessions Practical sessions Neuropathic pain Shoulder exercises	Neuropathic pain as is very challenging Things I had not prepared enough for	Increase practical and treatment techniques Distribute pre reading list earlier Larger slides in manual
